

ASG Automation: Engineered Performance

Advancing the Technology of Precision Assembly

ASG, Division of Jergens, Inc., a leading worldwide manufacturer and integrator of torque products and solutions for assembly and fastening, has a team of automation specialists ready to help you with designing and integrating a fully automated assembly system.

ASG offers a complete line of automation equipment and solutions, ranging from automatic screw feed systems, stand alone robotic systems, and complete line builds. These systems include Collaborative, 6-axis, SCARA, and Cartesian robots.

Partner with our RIA certified team for:

- Cycle Time Reduction
- Increasing Throughput
- Uninterrupted Workflow
- Reducing Operator Risk
- Machine Vision
- Pick and Place
- Torque and Angle Control
- Robots and Assembly Stations
- Error Proofing
- Part Feeding and Presenting
- Part Orientation
- Sequence Recognition Systems
- Batch and Data Monitoring
- Quality Improvement Verification
- Sorting Solutions
- Integrated Services
- Palletizing
- Multi-Spindle Solutions
